To Prospective Client

Re: Jack Cohen

Dear Sir or Madam:

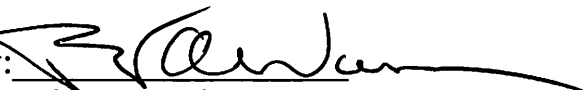

I am writing this reference regarding Jack Cohen's qualifications as an expert consultant in the automotive field, where I have used him extensively over the past eight years.

I have been practicing for about 40 years and practice extensively in the automotive area handling auto dealer fraud and other types of consumer automotive cases. Mr. Cohen has acted as an expert consultant in numerous aspects of cases I have handled based on his 30 plus years as a licensed dealer with his lifetime of experience in the wholesale and retail areas of the business. He has extensive knowledge of the issues involving passenger vehicles, light trucks and motorhomes as well as the related licensing, sales and dealer practices.

I value not only his knowledge, but his candid input and his credible demeanor that has been persuasive to the audience I have engaged him to present opinions to.

Wiener & Jackson
Sincerely,

By:
