Popular Long Island jazz-rock band. Member of professional musicians’ union.

### AWARDS

“**Chiropractor of the Year**” (1983, 1984) – **Broward County Chiropractic Society**

“**2003 Volunteer of the Year Award**” nominee, **Special Olympics Broward County**

### ADDITIONAL

**Public Relations Director (1983-1985) – Broward County Chiropractic Society**

**Executive Producer – Feature Film – The Gravedigger - 2022 - Erynn Dalton, Director**

**Chiropractic Textbook Orthopedics and my Chiropractic Activist Role – 2025**

**Comedy Movie & Television Comedy Show Screenplays – Hopefully Picked up by 2025**

### CONTINUING EDUCATION

Post-Graduate courses include courses in Risk Management, Diagnostic Imaging, X-ray Pathology, Orthopedics, Impairment Ratings, Hospital Protocol, Nutrition, Diagnosis, Sports Injuries, Diagnostics, Technique, Pelvic Examinations, AIDS, and Child Abuse etc.

Additional post-graduate classes include 20 FCA Convention Credits each and every year for chiropractic credits. I’ve also attended many South Florida PRI-Med conventions for AMA continuing education credits. I have also attended Florida Chiropractic Physician Association Conventions for additional chiropractic credits.

### ADDITIONAL

I’ve lectured at **Keiser University** in Fort Lauderdale, Florida for the Physician’s Assistant Master’s Program.

I’ve lectured at the Department of Family Medicine, **University of Miami, Miller School of Medicine, Jackson Memorial Hospital** on the proper performance of Independent Medical Examinations (IME’s), Peer Reviews and Case Reviews.

**I perform IME's (Auto & Workers' Comp.), Peer Reviews, Apportionments, Early Assessments, Coding and Paper Reviews, Plaintiff & Defense Records Reviews, Malpractice Reviews and provide Expert Court Testimony.** I'm a member of SEAK Expert Witnesses & SEAK Independent Medical Examiners, ALM Experts, Vista Research - Society of Industrial Leaders, and the Round Table Group. I perform IME's for many of the largest Insurance companies and IME vendors. I am also a medical file review consultant.

### **OTHER**

I have **taught a certification course at Florida Chiropractic Association (FCA) conventions**, titled "Examination and Medical Certification of Special Olympic Athletes for Special Olympic Competition".

I had been a **ringside physician for the Police Athletic League** championship boxing matches in West Palm Beach (Silver Gloves for over 12 years and some Junior Olympic Competitions). Duties included pre-fight examinations; sat ringside to examine boxers and stop a fight if necessary; provide emergency medical care (including emergency first aid for injuries including oxygen and defibrillation), and perform post-fight examinations to determine the health status of a boxer.

(NY License # X002238) Authorized to perform (in FL & NY) Independent Medical Examinations by State of New York Workers' Compensation Board (Authorization # C02238-6 1). Certified to treat Workers' Compensation in Florida.

I have provided **in-school Special Olympic certification examinations for the Broward County School System**. I have also provided examinations for adult Special Olympic athletes.

I've owned racehorses and have been asked by various trainers to utilize Chiropractic techniques on their racehorses. I also developed a natural nonsteroidal anti-inflammatory product for racehorses that was entirely safe, effective, and did not violate any of the state medication laws when taken prior to racing. **I am also a U.S. pharmaceutical patent holder (Patent number: 5073366 , 12/17/1991).**

**The Department of Veterans Affairs has me as eligible for a hospital-based Chiropractor position** based on departmental interviews and history at the Miami Veterans Hospital.

### **HEALTH CARE ACTIVIST**

My efforts resulted in a meeting between the American Chiropractic Association (ACA) and the **Social Security Administration (SSA)** to discuss expanding the role of Chiropractic in regards to **disability examinations** (2001). I had top SSA officials ready to testify on our behalf. Unfortunately, the ACA and the FCA sabotaged this endeavor.

I worked at getting Chiropractic declared as a mandatory department in all hospitals accredited by the **Joint Commission on Accreditation of Healthcare Organizations (JCAHO)**. I had the head legal counsel of the Joint Commission convinced that this is viable and will benefit patients and eliminate the AMA's lingering anti-trust action that is keeping Chiropractor out of hospitals. I was unsuccessful on getting the American Chiropractic Association (ACA) to follow through. I had a written invitation from the Joint Commission for the ACA to meet with them to discuss my proposals.

I attempted to get the Florida Chiropractic Association to back a legislative rule change in regards to the Florida Boxing Commission that would expand **ringside physician** boxing opportunities for Chiropractic Physicians. We had the backing of the medical director of USA Boxing. The medical director of USA Boxing has approached me at a Silver Gloves Tournament to discuss his interest in expanding the role that Chiropractors play ringside, giving us parity with M.D.'s and D.O.'s at the matches. USA Boxing is the organization in the United States that sanctions amateur boxing in the United States. Although I performed all the same duties as the allopathic doctors (M.D. or D.O.), one of the M.D.'s or D.O.'s must sign off on me. Although I am authorized in Florida by my State Chiropractic license to provide all services provided at a boxing match, the Florida Boxing Commission restricts ringside physicians to holders of M.D. or D.O. degrees. I did not receive the backing or the interest of the Florida Chiropractic Association.

## **STANDARDS OF CARE**

Specific imaging studies, as well as laboratory testing, and other established diagnostic testing procedures are ordered by me when medically indicated to help establish an accurate differential diagnosis. Each patient receives an accurate medical diagnosis based on a thorough case history; physical, orthopedic, and neurological examination; and diagnostic testing when indicated, to arrive at an accurate ICD-10 differential medical diagnosis as well as an accurate chiropractic biomechanical assessment.

The following classes taught by me are offered to State Chiropractic Associations: a class on the examination of Special Olympic Athletes; Common Boxing Injuries and the Chiropractor as a Ringside Physician; the Proper Performance of Independent Medical Examinations, and An Integrated Technique and Biomechanics Class on Chiropractic Manipulative Care.

\*\*\* I have never been accused of malpractice. I have never been disciplined. My license has been clean  
for entire 46 years in practice.

## **SCIENTIST**

Dr. Fred Beck has developed the © Beck Theoretical Model of Subluxation and ©Beck Correlative Techniques. The © Beck Theoretical Model of Subluxation assumes that subluxations do not occur randomly and are easily predictable. When a Chiropractic practitioner is thoroughly trained in the principals of the model, intra-examiner reliability should approach 100%. ©Beck Correlative Techniques is a comprehensive review of present Chiropractic technique philosophy and their effect on body spinal mechanics. ©Beck Correlative Techniques allows the practitioner a multitude of Chiropractic techniques available to accomplish the same goal. Dr. Beck has been utilizing his theory for many years with no negative outcomes. Dramatic results are usually achieved within the first three visits. Dr. Beck anticipates that his theories will help our researchers develop a better research design with excellent intra-examiner reliability and patient treatment outcomes. He also anticipates that his theory will make it easier for researchers to venture out into evaluating the effectiveness of Chiropractic care beyond the musculo-skeletal pain model. It will also increase the success of chiropractic care for Musculo-skeletal symptoms and decrease the time necessary for recovery. I have plans on releasing a textbook during 2025 on these subjects.
