⁴ Prior career of 10 years: Multi-State Regional Manager in retail marketing. (Childhood through college in Washington D.C. metro, military family, father was Sr. Officer, Pentagon Department of Defense, Andrews Air Force Base, Bolling AFB.)

⁵ I created the Master General Adjuster designation due to the uniqueness of being both a PGA and a CGA.

⁶ A level-7 Adjuster/EGA is of standard pinnacle ranking, a Terminal Grade; no official 8th level, e.g., “Sr. EGA”, exists for the Industry or marketplace, other than the new and exclusive Level-8 in 2023, a unique peer rating of Bruce Fredrics as the national foremost Subject Matter Expert on Claims Practices by Insurance application. There’s no known formal position as Executive Public Adjuster.

⁷ Most of my family is military from Junior Officer to Senior Officer (including my oldest daughter who is a College Professor).

⁸ I have family who are career law enforcement and members of the Georgia Bureau of Investigation.

⁹ Dale Cardwell is a known, reputable, experienced consumer investigator and advocate who supported me. However, another unrelated person acting similarly and alleging to be his colleague has contrarily and publicly published socially irresponsible and intentionally artificial: false, negative, inaccurate, misrepresented, and misleading information about me solely due to this “colleague’s” biased interests of an enhanced reputational agenda, financial gain, and personal notoriety at the intended expense of me and others as the means to accomplish unscrupulous goals. The facts proving all truth have long been known but have deceptively been kept hidden and never admitted to by this “colleague”. Unfortunately, unethical people will besmirch someone for money and fame but then lie to disguise such dishonesty as instead being of moral virtue. Such persons portray themselves as good people while actually deceiving so many others.
