LITIGATION RESUME SUMMARY

Name: Michael B. Plunkett

Education: BSME, 1969 University of New Haven
MSME, 1972 University of Rhode Island
P.E. Licenses: Rhode Island, Massachusetts, Connecticut, NC, Maine, New Hampshire, NY
Florida & National PE

Summary of Experience:

Thirty Five Years’ experience in the design analysis, inspection and auditing of piping, pipe supports, pressure vessels, tanks and other mechanical products. Extensive experience in performing design reviews, failure analysis, field inspections and reviews, rate cases, and expert witness testimony. Experience on Asbestos disputes concerning Power Plants, Industrial Facilities, Chemical Plants, Petro-Chemical, Water Treatment and Manufacturing Facilities.

15 years - Experience in developing litigation rate-case exhibits and detailed supporting testimony for utilities and law firms. Areas involved were: piping, pipe supports, pressure vessels, valves, pumps, blowers, fans, structural failure of products, failure analysis, seismic analysis, fire protection, pressure vessel, tanks, construction, fire protection, heat transfer analysis, environmental qualification of equipment, welding, product design, and patent information.

5 years - Experience in quality assurance and related disciplines. I have performed numerous technical NRC & DOE audits to assure compliance with ANSI N45.2.11, ASME Section III licensing requirements. I have been a consultant to the Department Of Energy concerning the Hanford Wastewater treatment facility.

10 years - Experience in design, analysis and field engineering of piping, supports, structures Pressure vessels and mechanical equipment considering thermal, deadweight and earthquake in accordance with ASME, ANSI, AWS, and NRC requirements. As Director of Research, Development and Engineering, was responsible for the development and qualification testing of a new line of hydraulic snubbers designed for extended life.

5 years - Experience performing system design and analysis for naval nuclear submarine piping systems. Duties included on board system evaluation during sea trials.

MIKE PLUNKETT

LITIGATION EXPERIENCE

LAW FIRM	CONTACT	TYPE OF WORK PERFORMED
Chamberlain, Hrdlicka, White, Williams, & Aughtry, 1200 Smith St., Ste. 1400, Houston, Texas 77002	Ryan Oliver Cantrell, (713) 658-2536	Dispute over the design, fabrication, installation and Transportation of a 20 ft. diameter 200 ft. long Splitter Vessel Column.
Fredman & Feiger, LLP 5301 Spring Valley Road Dallas, Texas 75254	Mr. John Sokatch 972-788-1400	Dispute over a V-log Stack which was part of a valve that was installed in the Shin-Kori Nuclear Power Plant in South Korea
Micolaides, Fink ,Thorpe. Michaelides, Sullivan LLP 505 Montgomery Street, Suite 600 San Francisco, CA 94111	Ms. Sara Thorpe 415.745.3772	Grinnell Valves Containing Asbestos. Dispute involved the exposure of asbestos due to the repair, fabrication, installation and maintenance of all types of Grinnell Valves
Pinsent Masons MPillay LLP 16 Collyee Quay Singapore 049318	Jon Howes Sadie Andrew +65 6305 0914	Dispute over the price of fabricated steel and pipe support on a major oil refinery
K & L Gates, L.L.P. Henry W. Oliver Building ,210 Sixth Avenue, Pittsburgh, PA 15222-2613	David Fusco, Esq., 412-344-6361 Cell 724-584-0080	Crane Valves Containing Asbestos. Dispute involved the exposure of asbestos due to the repair, fabrication, installation and maintenance of all types of Grinnell Valves
Kahrs, Nelson, Fanning, Hite & Kellogg 200 West Douglas Avenue Wichita, Kansas 67202-3089	Legal Counsel James Robinson	Retained as expert witness to perform evaluation on underground piping load bearing insulation failure. Issue with construction delays due to insulation replacement
Bollinger, Ruberry & Garvey 500 West Madison Street Chicago, Illinois 60661	Legal Counsel Marc A. Quinlivan	Scope included reviewing the integrity of the structural steel on the Marble Hill Project and product failure. Expert opinions included, Project Management, Construction delays, Structural steel integrity, and Code compliance. Also reviewed design of the ductwork to precipitator for design Errors & Omissions.
O'Melveny & Myers 400 South Hope Street Los Angeles, CA 90071	Legal Counsel John Crose	Retained as technical experts to support rate case. Testified as expert witness for piping and pipe support issues to the Public Utility Commission. Project overruns due to changes in ASME regulation.
Snell & Wilmer 3100 Valley Bank Center Phoenix, AZ 85073-3100	Legal Counsel George Lyons	Retained as technical experts to support overall rate case, pipe support, construction issues, etc. Testified as expert witness.
Kirkland & Ellis 200 East Randolph Drive Chicago, IL 60601	Legal Counsel Jim Cusick	Retained as technical expert for review of the effect of Mark II changes on the design of the reactor during litigation.
Siegel, Kelleher & Kahn 426 Franklin Street Buffalo, NY 14202	Legal Counsel Philip Abramowitz	Retained as technical expert to support gas well accident which injured two people. Case involved structural steel failure.
Nuclear Regulatory Commission (NRC)	Larry Shao	Prepared for Atomic Safety and Licensing Board (ASLB) hearings for granting of operating license to

Comanche Peak		Comanche Peak Nuclear Station. Provided testimony at hearings.
Womble, Carlyle, Sandridge and Rice P.O. Drawer 84 Winston Salem, NC 27102	Legal Counsel Gene A. Dickey	Retained as expert witness on a storage tank failure. Provided expert testimony relating to tank design adequacy.
Weston Hurd Fallon Paisley & Howley 2500 Terminal Tower Cleveland, OH 44113-2241	Legal Counsel William H. Baughman, Jr.	Retained as expert witness on a valve failure in a high pressure steam piping system which resulted in the death of three people.
Pepe & Hazard Goodwin Square Hartford, CT 06103-4302	Legal Counsel Peter Costas	Patent infringement case involving an industrial door hinge design. Retained as expert witness.
